REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Applicant's Amendment After Final filed August 13, 2004, canceling claims 11-15, 21 and 22, and amending claims 1, 8, 16, 19, 25-27, 29, and 33-35, brings the elected claims 1-10, 16, 18-20, 23-29, 31, 32 and 36-41 within the scope indicated in the telephonic interview conducted June 30, 2004, to be allowable to Applicant's counsel, where the greatest scope of claimed nucleic acid sequences, encoded polypeptides, compositions and kits comprising same, and methods of use thereof is defined by the very stringent nucleic acid hybridization and wash conditions set forth in claim 23. It is agreed that the new claims 30-41 add no new matter where their subject matters correspond to disclosures at pages 7 and 22 of the specification. These new claims would have been included among the subject matters of Group 1 had they been originally presented.

Because the new claims require a polynucleotide of claim 23 and present no other issues of patentability and because the non-elected claims 33-35 were amended with claims 1, 8, 16, 19, 25-27 and 29 to require that a polypeptide inhibited by a claimed method, and that a kit comprising components for inhibition of a polypeptide requires, an inhibited polypeptide be encoded by a nucleic acid sequence of the allowable claim 23, rejoinder pursuant to MPEP § 821.04 is proper. Because claims 33-35 present no further issues affecting patentability, claims 1-10, 16, 18-20, 23-29, and 31-41 are allowed herewith.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
